

## ISTHMUS IS AGAIN SHAKEN BY STRONG EARTHQUAKE SHOCK

Reports Indicate That Neither Locks Nor Any Part of Canal Are Damaged

## CAUSES GREAT ALARM

Inhabitants of Several of the Provinces Abandon Houses and Are Now Camped in the Fields

## MANY BUILDINGS DAMAGED

PANAMA, Oct. 4.—Another earthquake occurred on the isthmus at 5:06 this afternoon. It was almost equal in intensity to the shock of Wednesday night. Its duration was from 10 to fifteen seconds.

Buildings were severely shaken, but apparently no damage was done beyond the falling of plaster and the opening of slight fissures in a few structures.

Reports from the canal zone officials indicate that neither the locks nor any part of the canal suffered in any degree whatever.

The recording instruments indicated that the shock this afternoon had about half the intensity of that on Wednesday night and covered practically the same area, with the central point of disturbance about 110 miles from Panama City. The instruments further showed that a tremor also occurred at 5 o'clock in the morning and that in all there were about eighteen distinct movements.

Strong Shock at Naples.  
Naples, Oct. 4.—A strong earthquake shock occurred here at 7:20 this evening. It lasted thirty seconds and was followed by another shock at 7:30. Both were undulatory and caused a considerable alarm, though the damage was insignificant.

Shocks occurred also in the nearby provinces, particularly Arellano, where the inhabitants abandoned their houses. In the province of Foggia many of the villagers are camping in the fields.

Not as Sharp as First Quake.  
Colo., Oct. 4.—An earthquake shock lasting four or five seconds was felt at Colo. a few minutes after 5 o'clock this afternoon. The disturbance was not nearly as sharp as that of Wednesday night. The canal officials at Gatun report no damage to the canal. As in the previous case, residents were much alarmed over the tremors, many of them seeking safety in the streets.

Official Time Fixed.  
Panama, Oct. 4.—The time for blowing up the Gamboa dike has been officially fixed at 9 o'clock in the morning of October 10.

## ASYLUM NIGHT WATCHMAN IS CHARGED WITH ARSON

Woman Claims She Saw Kankakee Employee Throw Lighted Cigar in Bundle of Clothes.

Kankakee, Ill., Sept. 4.—On complaint of a woman that she had seen him throw a lighted cigar into a bundle of clothes, James Dixon, former night watchman at the state asylum for the insane, today was arrested charged with arson in setting fire to the institution's laundry building on May 24, 1912.

Miss Ella Wilson, a former attendant, gave the State's attorney information that after throwing the cigar into the clothes, Dixon had said:

"Oh, well, the state is rich."

The loss by fire was \$18,000. Another arrest is expected.

## TREASURY DEPARTMENT OFFICIALS ARE PUZZLED

AT SEA TO KNOW WHAT CONGRESS MEANT BY TARIFF PROVISION

Provision of New Tariff Law Allowing a Five Per Cent Reduction of Duties on Goods Imported in American Ships Will Be Referred to Attorney General and President Wilson.

WASHINGTON, Oct. 4.—Officials of the treasury department are at sea to know what congress actually meant by the provision of the new tariff law allowing a five per cent reduction of duties on goods imported in American ships, with the condition that the differential should not be construed to abrogate or impair an existing treaty between the United States and a foreign nation. Literally interpreted it is declared the provision would give a five per cent decrease to goods in American bottoms and automatically grant the same privilege to the same ships of the many nations, whose treaties with the United States guarantee no discrimination between their vessels and those of America. This construction which would be a horizontal reduction in the importation from most of the countries of the world, involves probably ten millions in revenue for the government creating a deficit instead of a surplus in the treasury as has been estimated by the tariff framers. The question undoubtedly will be referred to President Wilson and Attorney General McReynolds and ultimately will reach the United States supreme court.

State and treasury departments are in consultation over the effect of the provision, the first snag struck on the new law. Avoiding a literal construction, some officials contend that congress meant the reduction should be allowed only in cases where the United States did not have a treaty which would interfere.

Whatever the interpretation of the provision for nations with these guarantees of equality, it is pointed out other serious questions arise as to twenty-three nations whose treaties with this country do not guarantee against discrimination.

## HARMONY PREVAILS AT DEMOCRATIC CONVENTION

Platform Prepared By Committee Is Endorsed and Adopted by Convention.

Boston, Mass., Oct. 4.—Without a discordant note on any topic the Democratic state convention in Faneuil Hall today unanimously adopted the platform prepared by the resolution committee and endorsed the state ticket headed by Lieut. Gov. David I. Walsh, which was nominated in the recent primaries.

The resolutions contain the planks designed to hold party candidates close to the platform. One urges that provision be made for having the platform passed on by the voters in the primaries and the other favors having candidates for nomination file with the secretary of state an affirmation of their substantial agreement with the party platform. A resolution protesting against the appointment of men to federal positions without consultation with state party leaders was defeated before the platform committee.

## FORMER COWBOY ARRESTED FOR PASSING WORTHLESS CHECKS

Issues Worthless Checks in Bloomington and Danville Aggregating Several Thousand Dollars.

Danville, Ill., Oct. 4.—Charles Browder, former Texas cowpuncher, was arrested here this afternoon at the request of the Bloomington police, who charge him with issuing worthless checks aggregating several thousand dollars.

Following his arrest it was discovered that Browder had issued checks here aggregating \$3,225 for the purchase of horses, automobiles, etc. He received cash only on one check, for \$5, and had but 95 cents in his pockets when apprehended by the police as he was entering a newly purchased automobile to take his first ride. He will be taken to Bloomington Sunday night.

## REWEVERS ELECT OFFICERS.

Atlantic City, N. J., Oct. 4.—The annual election of the United Reweavers' association today, Edward A. Schmidt of Philadelphia was chosen president and Hugh F. Fox of New York, secretary. Ernest Feker, Jr., Danville, Ill., was elected member of the board of trustees.

## BRIEFS FILED WITH GOVERNOR FELKER.

Concord, N. H., Oct. 4.—Supplementary briefs opposing the extradition of Harry K. Thaw were filed with Governor Felker today.

With the briefs were submitted telegrams from the governors of thirty three states, all of whom said that they had no knowledge of a request ever having been made in their states for the extradition of a lunatic.

## SEEK SERVANT MERCHANT.

Pueblo, Colo., Oct. 4.—Police of Pueblo tonight are looking for Sava Radakovich, a Serbian merchant and banker of this city who is believed to have left the country last Monday taking with him some \$90,000 of his creditors' deposits.

## METHODISTS BATTLE OVER CHURCH PROPERTY

CHICAGO CHURCH PROPERTY SUBJECT OF WARM DEBATE

Opposing Factions of Rock River Conference Debate Proposal To Turn Wabash Avenue Property Over to Chicago Home Missionary Society.

FREEPORT, Ill., Oct. 4.—In executive session opposing factions of the Rock River Conference of the Methodist Episcopal Church this afternoon fought a battle of words over the Wabash avenue church property in Chicago and a proposal to turn it over absolutely to the Chicago home missionary and church extension society.

Dr. James Rowe, secretary of the Chicago Home Missionary Society, as well as Bishop McDowell were the objects of a bitter attack by some who took part in the debate. Dr. Rowe won, the conference adopting a resolution "expressing confidence in the Rock River conference in the Chicago Home Missionary and church extension society."

The resolution further declared that "whatever question may have been raised as to the administrative work of the society we believe its sole purpose as to conserve the interest of the kingdom of God and Chicago Methodism." A resolution was introduced favoring the leasing of the Chicago church.

Rev. A. A. Mohney, pastor of Wabash avenue church, led the fight against the resolution. Others who spoke against its adoption were Rev. C. A. Kelley, Chicago and Rev. Geo. I. Larash of Sheridan.

Mr. Larash was particularly hostile. At the close of the meeting he declared it was not a fair vote and many ministers did not know what they voted for.

## Episcopal Convention.

New York, Oct. 4.—The next three weeks will witness the making of ecclesiastical history here by the triennial general convention of the Episcopal church. Beginning Wednesday October 8, 115 bishops, 205 clerical and 205 lay delegates will meet at the Cathedral of St. John the Divine to hold daily session until October 24.

The bishops will constitute this house of Bishops and the 610 clergymen and laymen will sit in the house of deputies.

These two bodies will discuss amendments to the church constitution and their debates will bring to a head questions that have been agitating the church for many years.

## PROMULGATES REGULATIONS GOVERNING MEAT IMPORTATION

Foreign Certifications of Both Ante-Mortem and Post Mortem Inspection Are Required.

Washington, Oct. 4.—Secretary Houston of the department of agriculture today promulgated the regulations governing the importation of meat and food products under the new tariff act.

The regulations require foreign certifications of both ante-mortem and post-mortem inspection in the countries where the animals are slaughtered and inspection at ports of entry by agents of the department of agriculture. Very rigid regulations govern the imports even after entry to the United States. They are transmitted to federal inspected establishments and governed by the same inspection system as surrounds meat transported in inter-state commerce.

Generally, the regulations relate only to the meat or meat food products derived from cattle, sheep, swine and goats. Products from any other animals are governed by the regulations of the foods and drugs act.

It is found that the inspection of the meats in any foreign country is not adequate and efficient no meat or meat food products may be admitted to the United States from that country.

## ANNUAL REPORT PREDICTS TROUBLE IN PHILIPPINES

Major Bandholtz Asserts Filipinos Want Their Freedom and Uprising May Follow.

Washington, Oct. 4.—Trouble with the Philippines unless there is some declaration soon of the purpose of the United States to confer independence upon the Archipelago is predicted in the annual report of Major H. H. Bandholtz, the director of the Philippine constabulary made public today.

The report says that while the Philippines would rather have the United States dominate the affairs of the islands than any other power, they want their freedom and already there have been many rumors of an uprising such as always in the past preceded actual outbreaks.

## CONFESSES BURGLARIES

St. Louis, Mo., Oct. 4.—William Wedley, who was paroled from the state penitentiary by Governor Hadley for his heroism in fighting the fire that destroyed the state capitol two years ago, was arrested here today, and according to the police, has confessed to many recent burglaries in St. Louis.

## REBELS AND FEDERALS CLASH AT SINOLOA

Reports Assert the Insurgents Have the Advantage—Fighting Still Continues

## GET DETAILS OF THE BATTLE

Meagre Facts Regarding Battle at Chihuahua Show That Conflict Was a Desperately Fought and Bloody One

## NON-COMBATANTS FARE THE WORST

DOUGLAS, Ariz., Oct. 4.—Constitutionalists and federals clashed in an all day battle at the City of Sinoloa today, according to tonight's rebel advices, which asserted the insurgents had the advantage, although the fighting was still in progress.

The number of federals engaged in the battle was not stated in the dispatches but the constitutionalist troops were said to total 2,000.

## Battle a Bloody One.

El Paso, Texas, Oct. 4.—Meagre details of the battle of Santa Rosalia Chihuahua in which General Francisco Castro and his 4,700 federal troops succeeded in defeating and routing Francisco Villa and the 4000 combined rebel forces tend to show that the battle was a desperately fought and bloody one. General Salazar of the federal forces in a private telegram to friends at Juarez placed his estimate of the total number of dead at 700. The casualties were mostly on the rebel side. The loss of life among non-combatants in the town, resulting from the federal artillery fire, he stated, was enormous.

The principal buildings and most of the residences of the town were practically ruined. The Mission, one of the most costly buildings in Santa Rosalia, was badly damaged.

## MORGAN COUNTY TEACHERS HOLD FIRST MEETING

Annual Election of Officers. Part of Business Transacted—Supt. Montgomery Explains New Certifying Law.

The first meeting of the Morgan county teachers for the current year was held in the high school auditorium Saturday afternoon, there being nearly two hundred teachers in attendance. It was the occasion of the annual election of officers and also a committee was appointed to arrange for the coming year. Reports of officers were heard for last year and the finance report showed that there was a balance in the treasury.

The teachers were given a comprehensive account of the new certifying law, which goes into effect July 1, 1914, by Supt. H. C. Montgomery. He impressed it upon the teachers that it was a good idea to get acquainted thoroughly with the provisions of the act.

The annual election of officers resulted as follows:  
President—W. B. Lowery.  
Vice-president—H. A. Withers.  
Secretary and treasurer—Miss Nannie Campbell.

W. B. Lowery appointed the following committee, together with the officers elected, to arrange the programs for the ensuing year: W. A. Gore, Anna M. English, Beniah Clark, Burley Jones and Fred Dennis.

## WILL DO RESEARCH WORK IN UNIVERSITY OF MUNICH.

Miss Stella L. Cole Will Spend Leave of Absence in Travel and Advanced Study.

Miss Stella L. Cole will leave this morning for Germany, where she expects to sojourn for the ensuing year, her time of absence from her professorship of French and German at Illinois college, a post which she has filled with credit for several years. She will spend for several weeks the greater part of the time in the University of Munich as an advanced research worker in the fields of Germanic literature and philology. She will take several trips from the city of Munich, her headquarters, returning to the United States in the autumn of 1914.

## WOULD GIVE WIFE TO FRIEND.

Elgin, Ill., Oct. 4.—Paul Szokodi applied to the chief of police here today for a "paper" that would legalize the transfer of Mrs. Szokodi to his friend and that he wished his wife to be happy. Szokodi and Ord went to the police station together. Szokodi now has started divorce proceedings.

## WIDOW STICKS TO ORIGINAL STATEMENT

MRS. KELLER TAKES WITNESS STAND IN HER OWN BEHALF

Her Story to the Jury Varies Little From Statement She Made to Neighbors the Night Her Husband and Child Were Murdered.

PARRISVILLE, Mo., Oct. 4.—Mrs. Ida May Keller, on trial here for the murder of her husband, Arthur Keller, and their 7-year-old daughter, took the witness stand today and told her story to the jury. A stranger to whom she referred as "the prisoner" had killed both Keller and the child as they lay in their beds on the night of June 10, she said. Twice during the recital she broke down and sobbed.

Mrs. Keller's account of the tragedy varies little from the statement she made to neighbors the night her husband and daughter were killed. She had lain down on a bed with her clothes on to put the younger children to sleep after Margaret, the daughter who was killed, had gone to bed in her husband's room, she said. Her husband, according to her story, had not yet retired when she was awakened by a noise and saw the stranger with an axe in the doorway between the two bedrooms and as she arose the man struck at her with the axe and then ran from the house.

This stranger, she said, was the murderer. She denied that she and her husband ever had any differences. Several witnesses were put on the stand by the defense in an effort to discredit a detective who claimed to have obtained a full confession from Mrs. Keller.

## PHI NUS CELEBRATE ORIGIN WITH CLEVER PANTOMIME

"Scatterers of Light" Played and Banquet Held in Honor of New Members of I. W. C. Society.

The rendition of a clever pantomime play, the "Scatterers of Light" and a delicious banquet were the features this year of the annual recital of the Phi Nu society held Saturday evening at the home of Rev. J. W. Miller on West State street. The play was written by Miss Abbie Peabody and depicted the mythical origin of the Phi Nu. Miss Peabody read the play while fifteen of her sister society members portrayed by pantomime the magic story of the first Phi Nu. The room was beautifully decorated with autumn leaves and vines. At the conclusion of the play the one hundred and fifty guests adjourned to the dining room where they partook of the delicious delicacies prepared while an orchestra furnished some spirited music.

## The Cast.

The young ladies of Phi Nu who staged this romance of fairy land were:  
King Ancient—Mrs. Erma Elliott.  
Prince Loyal—Fertl Hesse.  
Princess Light—Inez Crum.  
The herald—Lena Gemerson.  
The druid—Winifred Burmeister.  
The magician—Ruth Revis.  
Witch Wealthy—Marie Miller.  
The attendant to the princess—Mildred Barton.  
The fairies:  
Happy—Ethlyn Weisgarver.  
Peace—Cortine Hughes.  
Mischievous—Elizabeth Metcalf.  
Propriety—Ruth Mattocks.  
Pages—Ruth Barker and Genevieve Spieth.

## MISSION WORKERS.

The auxiliary to the Christian women's board of missions held an interesting meeting at the Central Christian church Friday afternoon. Mrs. Adon Rice had charge of the program and it was enjoyed by all. A business session presided over by Mrs. Thornberry followed and plans for the work of the year were discussed. Good reports were given by the secretary and treasurer.

The captains of the divisions reported the number of points gained in the contest for the year. Division C stood at the head with over 6,000 points to their credit. A. C. W. B. M. pin was awarded Miss Spray, captain of the winning side. A similar pin was presented Mrs. Thornberry, president, in appreciation of her work. The society feels fortunate in having such an efficient enthusiastic and consecrated leader.

W. P. Conrad Royal Vicer of El Med temple Peoria has written the local D. O. K. K.'s that they will be down 200 strong in a special train for the big ceremonial Oct. 14, and will bring along a 25 piece band. They say they are going to show Jacksonville the very best in the line of parade.

## ATTENDANCE OVER 1,000.

Perhaps few people realize that there were over 1,000 paid admissions to the Majestic theatre on East State street Saturday. Manager Luttrell has every reason to feel proud that his entertainments are appreciated.

## TRIP WILL BE DEFERRED.

Washington, Oct. 4.—Owing to the tension existing between Japan and China, the American commission delegated to visit those countries, in the interest of the Panama-Pacific exposition will not sail from San Francisco next Tuesday as had been planned. The exposition authorities suggested that the trip be deferred until conditions were more favorable.

## JUDGE REFUSES WRIT TO MINING COMPANY

WOULD RESTRAIN STRIKERS FROM INTERFERING WITH WORKMEN

Calumet and Hecla Company's Application for Writ Is Refused by Judge Because No Notice Had Been Given to the Western Federation of Miners.

CALUMET, Mich., Oct. 4.—A. F. Rees, chief counsel for the Calumet and Hecla Mining company, this afternoon applied to Circuit Judge O'Brien for an ex parte restraining order against the Western Federation of Miners, officers and members prohibiting picketing and interference with workmen by the copper strikers. Because no notice had been given to the Federation the writ was refused.

Chief Counsel Rees, who returned today from Lansing, where he made application to the supreme court for a mandamus to compel the issuance of an injunction, will return to Lansing Monday to argue the case.

The application for the restraining order this afternoon was accompanied by eighty-five affidavits from citizens of Houghton and Keweenaw counties, describing the rioting, alleged intimidation and attacks on workmen since Judge O'Brien dissolved a temporary injunction against picketing a week ago.

At that time the court announced that before an application for an injunction would be heard that the opposing side would have to be notified ten days before the hearing. Attorney Rees believed that on the showing of evidence today the court would issue the writ, but Judge O'Brien applied his previous ruling. Although several militia companies have been ordered to be prepared to be recalled for duty in the strike district General Abbey believes their services will not be needed. He is confident there will be no change for the worse in the situation.

## THOMAS J. DUFFNER GOES TO THE F. J. GARLAND STORE

Severs Connection With Jacksonville Tailoring Company—Albert Renner Will Devote Entire Time To the Business—Alfred Larsen Will Be Cutter.

Through an agreement recently reached Thomas J. Duffner severs his connection with the Jacksonville Tailoring company and commencing Monday will be associated with the F. J. Garland and Company clothing establishment where he was formerly employed. For the past seven years Mr. Duffner has been the secretary and treasurer of the Jacksonville Tailoring company and had a great part in building up the trade and reputation of the well known tailoring firm. The Garland company feel fortunate in securing the services of Mr. Duffner and the merits of the Garland store are too well known for further comment.

Albert Renner, who is president of the Jacksonville Tailoring company will hereafter devote his entire time to the company's interests. His wide experience in the tailoring business has enabled him to win the confidence of the citizens, who desire the best in his line and he expects to maintain and even go beyond the splendid record of the past. Alfred Larsen, who now conducts a tailoring establishment on North Main street, will take charge of the cutting and making up of men's garments at the Jacksonville Tailoring Company. He is an experienced and capable man and will be a valuable employee of the firm. He will take up his duties as soon as he can dispose of his business.

## PRESIDENT WILSON'S AUTOMOBILE STRIKES 15-YEAR OLD BOY

Youth Is Slightly Bruised When Knocked Down by Chief Executive's Car

## INJURIES NOT SERIOUS

President Is Returning to White House from Ride Through Maryland When Accident Occurs

## LAD IS HURRIED TO HOSPITAL

WASHINGTON, Oct. 4.—While President Wilson was motoring through the southeastern section of the city early tonight, returning to the white house from a long ride through Maryland, his automobile struck Robert Crawford, a 15-year-old messenger boy, slightly bruising him about the knees. Young Crawford was taken to a hospital at once by Grayson, the president's physician, who was along. An examination showed that no bones were broken and that his injuries were not at all serious. The boy was riding a bicycle and trying to dodge stones being hurled at him by another youngster, when he suddenly answered directly in front of the president's car as it rounded a corner. Chauffeur Francis Robinson quickly applied the emergency brakes, stopping the car with a jerk before the wheels could pass over the body. The president, who was riding in the front seat with the chauffeur, was at the boy's side in an instant, lifting him from beneath the hood, while the secret service men disentangled the demolished bicycle from under the automobile. Crawford's principal solicitation was his wheel.

"My wheel, my wheel," he whimpered, "I'll have to carry the messages now."

The president promptly assured him that he would buy "you a new wheel," and directed Dr. Grayson to attend him constantly.

The boy was taken in the secret service automobile to a hospital at which his mother is employed.

## SIGNING OF TARIFF BILL BRINGS JOY TO EXPORTERS

Reduction in Cotton Duty Is Especially Gratifying To Italian Exporters.

Rome, Oct. 4.—The signing of the tariff bill by President Wilson has caused satisfaction among exporters who hope to increase their business with the United States. In Italian exportation, the United States now stands third, being surpassed only by Germany and Switzerland. Especially gratifying is the reduction in the duty on cotton, one of the principal Italian exports, which however, is now exported chiefly to the east and to South America.

## HEAVY RAINS WASH OUT RAILROAD TRACKS.

Leavenworth, Kan., Oct. 4.—Railroad tracks on both sides of the Missouri river were washed out by heavy rains today.

### WOMAN'S COLLEGE NOTES.

The Athletic association had the chapel service Thursday morning and the following officers were elected: Geneva Upp, '14, president; Irene Crum, '15, secretary; Essie Summers, '17, treasurer. The athletic association has a large membership and the work for the year is starting out most auspiciously.

The Theta Sigma society entertained delightfully Monday on the first two floors of Harker hall. A clever idea was worked out in a trip around the world. A most delightful time was enjoyed.

The Phi Nu society entertained for the new students Friday evening at the home of Miss Marie Miller on West State street.

The college library is indebted to Mr. T. H. Buckthorpe for a number of volumes which were received this last week. A new steel stack has just been installed, giving room for still further growth. Two more tables to go in the reading room have been ordered.

The laundry has received some additional equipment. A new fifteen horse power engine is now being installed, which will give ample power for whatever enlargement may be necessary in that department.

Miss Churton, director of the home economics department, announces a class in cooking for those who have had the ordinary work along this line. This is a practical course and is intended for those who do not intend to become teachers, but wish the actual and technical work. For further information call on Miss Churton, or at the office of the college.

Four of the latest model Underwood typewriters have been received in the main office.

The school of fine arts has a heavy enrollment in private work. The department has a 30 per cent increase in the two hour lessons.

The school of expression has received additional enrollments. The work is now divided so that the assistant director handles the class work, while the director handles all the private work. This arrangement gives much better results than the former way of handling the work.

Miss Ruth Taylor left this last week to accept a splendid position in Washington, D. C., in the training school conducted by Dr. Wylder, former pastor of the Centenary M. E. church. She will have charge of the household arts in Dr. Wylder's school.

Miss Florence Taggart of South Bend, Ind., who graduated in home economics, has just been appointed to a position in the high school at Napanee, Ind., where she will have charge of the installing of the work in both household science and household arts.

### College of Music Notes.

The College of Music opens this year with a large enrollment, many students coming from a distance to specialize in music.

Mrs. Hartman reports many beautiful voices in her class this year.

The class in "fundamental training" opened Saturday, Oct. 4th; the registration exceeds expectations. The children range in age from six to nine years. For the convenience of the teacher, the class meets in two divisions: one division at 1 and the other at 1:45. If there are further registrations, places can be made in one or the other of the divisions, or a new division will be formed is desirable.

Miss Louise D. Miller left for Chicago Wednesday, Oct. the first, where she will study voice under Frederick Root, one of the leading American singing teachers, and author of many works in voice culture. She is also to be accompanist and secretary for Mr. Root. Miss Miller graduated in both instrumental and vocal from the College of Music. Her voice work was finished under Mrs. Hartman. She has held positions as teacher of voice and piano and has been accompanist for the past two years at the College of Music. She has been prominent in musical centers of Jacksonville, having held choir positions at Grace Methodist and State Street Presbyterian churches, and has appeared frequently with success in recital and concert work.

BUY YOUR UNDERWEAR HERE FOR WOMEN, MISSES AND CHILDREN

**ATHENA UNDERWEAR**

For Women, Misses, Children

Is Tailored to Fit Without Stretching

HOW many women would accept a tailored suit which depends for its fit, over the bust and the hips, upon the elasticity of its materials? Yet there are scores of brands of knit underwear which depend almost entirely upon the elasticity of the fabric for a semblance of shapeliness.

Athena Underwear on the contrary is cut to fit, tailored to fit, and actually and truthfully does fit without stretching.

The features combined for the first time in Athena Underwear all contribute to its tailored perfection

**THE PATENT-FITTED SEAT**—The most notable improvement ever made in underwear designing, being so shaped that it clings snugly to the figure in any posture.

**THE THREE-CORNERED GUSSET**—Relieves the strain at the thigh, giving greater comfort and longer wear.

**THE PERFECTED SHOULDER STAY**—Keeps the garment from stretching down over the shoulder and holds the sleeve in place.

**THE FITTED SHOULDER AND SLEEVE**—Give the natural form to the bust and the proper tapering to the back.

**THE EXTRA ELASTIC CUFF**—Holds the sleeve in place and keeps it from slipping up on the arm.

**SHAPING AND SIZING**—Giving Athena garments the actual body lines and proportions, and affording sizes that will fit with tailored precision.

You can buy Athena at the price you have been paying for ordinary underwear. Made in thirty-eight fabrics—comprising sheer light-weight lisle and cotton, light-weight wool, heavy-weight cotton (fleece and unfleece), heavy-weight wool, silk and wool. Twenty-eight distinctive shapes.

ATHENA UNDERWEAR HAS NO SUPERIOR. BUY IT AND BE SATISFIED

**HAS INTERESTING EXHIBIT****OF WAR TIME CURRENCY**

Public Library Has Representative Collection of "Shinplasters" and Confederate Notes.

Fractional currency of the series of 1863 and a representative collection of notes of the confederate states are included in an interesting paper money exhibit shown the past week at the public library. The "shinplasters," as the former are termed, are in denominations of 50, 25, 10, 5 and 3 cents and are in first class condition, mounted under glass. They were collected by Daniel Pierson, a graduate of the medical department of Illinois college, and are owned and loaned to the library by his daughter, Miss A. K. Pierson. Of no less interest is the collection of confederate paper money loaned to the library by the United States treasury department. The notes are 21 in number and include 5, 10 and 20 dollar bills. The different inscriptions on the bills, as the war progressed, throw a side-light on the financial state of the confederate government. In 1861 the notes were to be paid in specie six months after the conclusion of the treaty of peace. In 1863 and '64 they were to be "fundable in stocks or bonds of the confederate government two years after the ratification of the treaty of peace between the confederate states and the United States." The notes of 1861 were to draw interest at 8 per cent while those of the later issues make no mention of interest. As is true of modern paper, the notes "except customs duties and interest on the public debt."

Having disposed of my interest in the Jacksonville Tailoring company, I wish to thank my friends for their liberal patronage and many favors shown me, while connected with the above firm, and also to announce that commencing Oct. 6 I will again be with the well known clothing firm of F. J. Garland & Co., with whom I was associated before entering the tailoring business. My past association with this firm has enabled me to become thoroughly familiar with the superior lines of merchandise they carry, their straightforward manner of doing business, the honest values and courteous treatment extended their patrons, and I take pleasure in extending to all my friends a kind invitation to call and see me, assuring you your patronage will be appreciated, and, as in the past, I will do all in my power to give you a fair and square deal, and thereby merit your continued patronage.

Very truly yours,

Thomas J. Duffner.

15 tons  
hard coal  
at \$9 per ton  
Paid \$135.00

# GONE UP IN SMOKE

One-half of your coal—and it did you no good. Hard luck that. But there is a way to fix it. Here's how:

That stove of yours has seen its best days. You need a new one. You know it—but you have let things drift along.

Meanwhile, you have been losing HALF of every hod of coal you have put in it.

Of course, you knew it, but you did not think of it that way. You know that half of every lump is gas. Fail to burn that gas and it is like throwing into the ditch half of every dollar you spend in coal.

Rather extravagant? Yes?

The ordinary stove made of a lot of separate castings leaks air. They leak air at the wrong place. Places you can not control.

RESULT—the best part of your coal—the 14,000 cubic feet of common illuminating gas that is in the average ton of \$3.00 soft coal—goes up the flue unburned.

You have lost it. It has gone up in smoke.

Save that gas—mix it properly with air and you have the hottest kind of a blue flame. But there is only one way to do this—

Buy the only heater that is made tight—holds tight—stays tight.

## Cole's Original Hot Blast Heater

It leaks no air.  
This is the heater that mixes the gas and air and gives you all the heat in the coal.

This is the heater that burns any kind of coal and makes a ton of \$3.00 soft coal do the work of \$8.00 hard coal in a high priced base burner.

This is the heater that is a joy and comfort to the housewife. It makes no dirt or smoke in the house.

This is the heater that saves labor—fix it in the morning and at night and FORGET IT THE REST OF THE TIME.

This is the heater that gives a steady, constant heat from soft coal or lignite.

This is the heater that will hold its fire untouched for a day and a half.

This is the heater we sell you under a guarantee that is as "good as old wheat at the mill." Burns soft coal, lignite, slack, hard coal or wood.

THE JACKSONVILLE JOURNAL  
Established 1843  
Published by  
JACKSONVILLE JOURNAL CO.

That the battle between the wet and dry forces of Jacksonville precinct is about to begin in earnest is indicated by the organization of the Jacksonville Business Men's Protective association, avowedly in favor of the return of saloons to the city, and the unannounced activity among the dry forces.

Rev. W. A. Gardner is in the city and will direct the campaign for the Protective association. It is understood that his work will be devoted largely to publicity matters and that it is the intention of the association to come before the people and emphasize continually that they are in favor of saloons because of the belief that well regulated, law abiding saloons are less a menace to public morals than are bootleggers and blind tigers.

The association is said to have framed up an ordinance governing saloons which they will urge upon the commissioners for enactment if the city votes to return to the license system.

This ordinance would have other points in it, but most of them are included in the following resolution which appears upon all the stationery which the association is using in its publicity campaign:

"Whereas, the experience of prohibition cities proves that greater evils spring up under prohibition than ever existed before; that for every saloon under the license system a half dozen bootleggers or blind tigers appear under prohibition; that these conditions are a greater menace to the young than the regulated saloon, therefore

"Resolved that, this association favors the licensed, restricted and regulated sale of liquor; that we are opposed to political control by brewers or liquor dealers and pledge our association to assist in the elimination of this and other evils. We discriminate between temperance and prohibition. We, in common with all right thinking men, believe in temperance, but that neither virtue nor true temperance can exist except when a man is a free agent to choose between good and evil."

Thus far the known activity among the forces favoring a saloonless city is in the ranks of the women, who will, for the first time, cast ballots in a local option election in Jacksonville. The women are being organized by churches and workers are out among them securing signed pledges to go to the polls election day and vote against the saloons returning. Already there are said to be more than twelve hundred cards signed and the work of canvassing has not been completed. The committee directing this part of the campaign confidently expects to have fifteen hundred to two thousand such cards signed within ten days' time and in that event a very heavy women's vote will be assured. The slogan of the women, too, will be "vote early" so that there may be no delays if it becomes the policy of the wet forces to challenge the votes of women because of their names not being on the register books.

In this matter of registration it seems to be the understanding that in this election that a woman voter is in the same position as a male voter who has moved into a voting precinct at a date early enough to make him a legal voter there but not in time to have his name on the poll books. In such a case the voter will have a right to cast his ballot and if unchallenged can do so without making an affidavit. If his vote is challenged then the affidavit will be necessary. For the woman voter the condition will be the same. Unless challenged there will be no occasion for affidavits. The women, however, will be prepared to vote with affidavits or without and in order to accomplish this without embarrassment will get to the polls early. It is recognized that if the women all went to the polls in the afternoon and all had to make affidavits that there would be great difficulty in getting the votes all in.

There are a number of leaders among the wet forces who were opposed to bringing the issue to a vote at this time, because they thought that in view of the new suffrage law and some other conditions that there was small chance of success. The majority, however, wanted to go ahead and try the matter out at this time and it is said to be their hope to have a majority of the male votes cast at the election favorable to saloons and that when the woman suffrage law gets into the supreme court that it will be declared unconstitutional. They are willing to concede that in Jacksonville the large majority of women who vote will be with the drys and their hope is that this majority vote will be set at naught by the supreme court decision.

One of the real surprises of the last general assembly was the passage of the equal suffrage bill. That is, it was a surprise to those who were not in close touch with the situation. After the noise and tumult had cleared away it was generally recognized that it was the strength of the local option forces which put the measure through and that it was regarded by them as the most important bit of legislation from a dry standpoint which had been enacted for a considerable period in Illinois. Some of the men who voted for the law were not especially in favor of "votes for women," but they believe that in giving to women the right to vote upon a question so closely affecting the home that they were doing a righteous thing and that they were also adding a vast amount to the voting strength of the local option forces.

When it comes to advocating the saloon from a moral standpoint the

difficulty which will confront the Protective association will be to point to any good thing which ever came from the saloon or from the liquor business. The average believer in or patron of the saloon does not usually argue that it is an institution of divine origin.

There are seventy are lamps, a part of the Jacksonville lighting system, which are now on the junk pile, just about one-third of all the lamps which should be in use. And yet people wonder why the streets are dark and why a midnight gloom continually hangs over many a corner where pedestrians are constantly passing. Commissioner Brennan has stated repeatedly that when a lamp is worn out that all parts usable for other lamps are saved and that the remainder is consigned to junk. New lamps of the present type cannot be purchased, because their manufacture has been discontinued. Repairs cannot be had unless they are ordered made by hand and that cost is prohibitive. These facts are only of interest as they emphasize the need for something to be done to better street lighting in Jacksonville. There is no use waiting until the city gets some heavy personal injury suit because some citizens has fallen on a dark street. There is no need to wait for burglaries or other midnight depredations encouraged by the constant cover of darkness.

Thus far no one has arisen to argue that the city has plenty of light and needs nothing better in this line. With this condition it is reasonable to assume that everybody wants more light and the question for solution is simply the best means of buying this commodity. If the Jacksonville Light company has a proposition which will afford plenty of illumination let that be considered. If this light can be purchased in this way at less cost than by manufacturing in the city plant, the city officials will have some cause for entering into a contract for the purchase of light.

If this plan is more costly or less satisfactory in other ways, then the bond issue plan for rebuilding of the light plant becomes the issue. Mr. Brennan, who is at the head of the city light department, has carefully made figures on the cost of operation of the city plant and as to what would be the cost of a new plant. He has explained these facts and figures. What Jacksonville needs is light by contract with a private company here or elsewhere, or from a municipal plant, and the sooner well lighted streets are secured the better off the city will be.

Regardless of the opinion as to the value of the Democratic tariff bill, the country at large will rejoice in the fact that President Wilson has signed the measure and that there is no longer any doubt as to its provisions. The long debate on tariff matters and the continued doubt as to what the outcome would be has been for months a disturbing factor in business. No matter what the ultimate effect of the bill, the present fact of its becoming a law will quiet conditions and restore some measure of confidence. One thing the Democratic party will have to have credit for and that is the fulfillment of a campaign promise to revise the tariff downward. The tariff is so big a thing that thousands of people talk about it and only a very few of them realize anything of the real meaning of the tariff law with all of its ramifications and interrelationship. Everybody has the vague feeling that somehow or other the tariff is intimately related to personal expenditures and income.

If we hope that the revision will bring to pass all of the blessings which the Democrats have claimed for it and that it will not have following in its wake all of the business calamity, all of the disappointments which have attended all other tariff legislation fathered and passed by the Democratic party. Their last efforts in this line was in 1894 and the effect has only recently been blotted from memory. Perhaps this matter of memory is the real reason that the party again had sufficient influence to pass the new law.

**TRIBUTE TO GEN. CASTLEMAN.**  
Louisville, Ky., Oct. 4.—Regardless of the fact that he was once expelled from the United States, "never to return," a masterpiece in marble was unveiled heretoday as a tribute to Gen. John B. Castleman. Friends of the adoring confederate leader contributed the \$15,000 paid for the life size equestrian statue and have hurried its placing in Cherokee park that Gen. Castleman might see it himself.

As a member of Morgan's band of cavalymen Castleman led the party that carried the fire and sword of the confederacy to the most northern point reached later and imprisoned in Indianapolis, where an order from President Lincoln saved him from execution. At the close of the war he was banished from the country. A year later he was pardoned. In the war with Spain he served as colonel of the First Kentucky volunteers and was tendered a commission as brigadier general in the United States army.

**A VETERAN FARMER.**  
A veteran farmer of the north part of the county is John A. McDonald, 84 years old. He planted and tended fifteen acres of corn entirely himself and tended it with a walking cultivator at that, as he doesn't believe in new fangled riding cultivators. He has cut ninety shocks already and is not worn out by any means.

**QUICK RELIEF FOR RHEUMATISM.**  
George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had been lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.—Adv.

## CHICAGO DEDICATES NEW ATHLETIC FIELD BY VICTORY OVER INDIANA

### HOOSIERS SHOW UNEXPECTED STRENGTH AND AND GAME IS HARD FOUGHT

### President Judson Formally Presents Coach Stagg With \$200,000 Stadium--Captain Davis of Indiana Dislocates Right Knee--Other Football Games.

Marshall Field, Chicago, Oct. 4.—Chicago dedicated her new \$200,000 athletic field this afternoon with a victory over Indiana by score 21 to 7.

Two of Chicago's scores came by result of intercepted forward passes. Captain Norgren made a brilliant 40 yard run through half the visiting team. The third touchdown came after line plunges of Norgren and Kennedy.

Indiana's score followed a 45 yard run by Winters after intercepting a forward pass.

Indiana showed unexpected strength and the game was closer than the score would indicate on two or three occasions the visitors lost the ball after they had placed it in the shadow of the Maroon goal.

Preceding the game two thousand students and alumni of the University paraded the field. President Harry Pratt Judson then escorted Coach A. A. Stagg to a platform in front of the west grandstand and formally presented him with the new \$200,000 stadium. Captain Edward Davis of Indiana dislocated his right knee during a scrimmage in the third period. He was helped from the field and the injured limb put in a plaster cast.

Princeton Plays Open Game.

Princeton, Oct. 4.—The Tigers played an entirely open game today. The team which started for Princeton was soon changed for the second string men and these in turn were relieved by other substitutes until nearly the entire squad had a chance to play.

Fordham's failure in hitting the Tiger backs hard and the inability of the visitors to successfully launch some intricate plays including a triple pass ending with a forward pass helped Princeton to victory.

The home eleven on the other hand played a smashing game throughout.

Pennsylvania, 10; Lafayette, 0.

Philadelphia, Oct. 4.—Well executed forward passes enabled the University of Pennsylvania football team to defeat the Lafayette College eleven on Franklin Field today by the score of 10 to 0.

It was a veteran team that Lafayette sent against a mixed line-up of old and new players and the latter had to resort to much open play to gain the victory. Pennsylvania could make but little impression on Lafayette's line and had to fall back largely on forward passes in this department the Quakers gave a splendid exhibition, the majority of their passes being successful and gained much ground. In first period Pennsylvania by open play got the ball to Lafayette's forty yard line from which Hart Carrell, drop kick, made a beautiful goal. Toward the end of the game Lafayette's line, still holding like a rock, Pennsylvania frequently resorted to the forward pass and worked the ball to Lafayette's 25-yard line by this means. Then Minds made a rifle shot throw over the Lafayette goal line to Koons who touched the ball to the ground for six more points. Marshall kicked an easy point.

Pennsylvania's goal was in danger several times but the Quakers usually tightened up when they got into trouble.

Yale Gets Big Surprise.

New Haven, Conn., Oct. 4.—University of Maine's football team, which last Saturday was smothered by Harvard 34 to 0 gave Yale the biggest surprise in years on Yale field this afternoon by holding the Blue to a nothing to nothing score. The Maine collegians, although rushed off their feet at times, presented a magnificent defense whenever their goal was threatened.

Wolverines Defeat Case.

Ann Arbor, Mich., Oct. 4.—Michigan's old point-a-minute system of football scoring was approached today when the Wolverines defeated Case by the decisive score of 48 to 0.

During the first half of 30 minutes play, Michigan scored 34 points through the fast aggressive work of its light backfield. In the second division of the game, Yost sent in an entire eleven of subs. Against the attack of the Cleveland school held to better advantage. The visitors held the Maize and Blue scoreless during the entire fourth quarter.

Cattlet of Michigan started at halfback during the first two quarters with two sixty-yard runs. Captain Patterson made his first touchdown in three seasons at Michigan when he intercepted a forward pass and ran 45 yards for a touchdown.

Beloit Establishes Record.

Beloit, Wis., Oct. 4.—The Beloit college football eleven established a record here today when it defeated the DeKalb Normal team by a score of 116 to 0.

The Wisconsin team crossed the goal line sixteen times and made two field goals from placement.

Minnesota Wins in Rain.

Minneapolis, Minn., Oct. 4.—Playing through a drizzling rain that made impracticable other than straight football, the University of Minnesota defeated Ames Agricultural college 25 to 0. The touch-

downs, one each in the first and second periods and two in the last, were the direct result of hard line plunges. Fullback Shaughnessy's gains through the Ames lines featured the first three quarters. The playing of Left Halfback McAlmon and Lawler, who had substituted Tolleson at quarterback when the latter injured his leg in the third period, was principally responsible for Minnesota's two touchdowns in the final session.

Ames was unable to consistently penetrate Minnesota's defense and frequently the Iowa backs were thrown for losses.

The play for the most part was confined to Ames' territory and the latter never came dangerously near scoring.

Northwestern Wins 10 to 0.

Evanston, Ill., Oct. 4.—Playing old fashioned football, Northwestern won its opening game of the season from Lake Forest today 10 to 0. Not until the fourth quarter did the Purple essay a forward pass and then three attempts were failures. A spectacular play late in the first quarter included a 50 yard punt by Patterson and a 40-yard run back of the kick by Grey, the Lake Forest fullback.

Badgers Show Poor Form.

Camp Randall, Madison, Wis., Oct. 4.—The University of Wisconsin, last year's conference champions, celebrated the opening of the gridiron season with a 58 to 7 victory over Lawrence college of Appleton today. Despite the showing indicated by the score board, the Badgers displayed poor form at many stages and afforded the coaches numerous opportunities to strengthen weak points. Few forward passes succeeded and fumbles were frequent. A long run by Sampson shortly before the end of the game gave Lawrence a well earned score.

Purdue Defeats Wabash.

Lafayette, Ind., Oct. 4.—Purdue opened the football season here today by defeating Wabash. The final score was Purdue, 26; Wabash, 0.

Purdue played an aggressive game from the start, but the new men were nervous and made costly fumbles in the early stages of the contest.

Superb defense, however, prevented Wabash from making any substantial gains.

Missouri an Easy Victor.

Columbia, Mo., Oct. 4.—The University of Missouri football team opened its gridiron season here this afternoon with a victory, rolling up 69 points while the eleven from Drury college failed to get a point.

Wigman's run of fifty-five yards and Lake's run of fifty-two for touchdowns featured the contest. Missouri started off with a rush, playing a smashing game that netted them twenty-one points in the first quarter.

When he first half was over fifty-five points had been scored. Seven points were added in each the third and fourth quarters.

Coach Brewer sent in many substitutes during the game.

Harvard Plays Conservative Game.

Cambridge, Mass., Oct. 4.—Playing a conservative game the Harvard football eleven registered fourteen points against Bates and held their opponents without a score on the watersoaked gridiron of the stadium today.

At no time was the crimson goal threatened and only once, when an on-side kick netted 35 yards, did Bates gain first down. The Harvard team's offense was found wanting at times, especially in the third period, when they failed to score and were held for downs on Bates' three-yard line.

Iowa Too Strong for Kentucky.

Iowa City, Iowa, Oct. 4.—The University of Iowa football team outclassed the state normal team here this afternoon, taking the game 45 to 3. The normal opened strong and after Iowa had scored took the ball to the 25-yard line on a penalty. Richards drop kicked goal.

Illinois Too Strong for Kentucky.

Urbana, Ill., Oct. 4.—The University of Illinois was too strong for the University of Kentucky in today's football game, the Blue Grays players losing 21 to 0 and never succeeding in menacing the Illini goal. Wagner was shoved over for a goal, the first, in five minutes of play. In the second quarter Rowe's long throw to Wilson resulted in another score. Rowe making the touchdown.

Coach Seupke sent a number of second string men in for Illinois in the third period and they were unable to score. In the last period, Captain Rowe and the regular half backs returned. Rowe made a long throw to Derby, who put the Kentucky five-yard line before he was thrown. Schobinger went over for the score.

Rowe kicked all three goals.

Coach Page of Chicago and a Minnesota scout watched the game.

## CHAMPION GIANTS WIN BOTH GAMES OF DOUBLE HEADER

Regulars Trim Philadelphia in First Game 12 to 7 and Substitutes Win Second 7 to 5.

New York, Oct. 4.—The curtain rang down on the local National League's season here today when New York took a double header from Philadelphia. The New York regulars won the first game easily by a score of 12 to 7 while the Giant Yanigans won the second by a score of 7 to 5.

YANKEES CAPTURE WEIRDLY PLAYED GAME FROM ATHLETICS

Mack Uses Nineteen Men in Contest Against New York Which the Latter Win 10 to 8.

Philadelphia, Oct. 4.—Manager of the Philadelphia American league champions put two sets of infielders and outfielders, two catches and three of his young pitchers in against New York in the final league game here today and the latter won the game 10 to 8.

It was a weirdly played affair, both teams fielding poorly, the pitchers being wild and the batting light.

## WASHINGTON TAKES LAST GAME FROM BOSTON RED SOX

Game Is a Farce Throughout With Senators Winning 10 to 9.  
Washington, Oct. 4.—The final curtain on the 1913 American league baseball season in this city was rung down today, when Washington took the last game from the Boston Red Sox 10 to 9. The exhibition was a farce throughout, players of both teams indulging in comedy and giving their opponents an opportunity to fatten batting averages. Score: R. H. E. Boston . . . 020 100 000—9 15 1. ## MACK'S INFELD COMBINATION HAS A SHADE ON THE GIANTS

Comparing the Statistics of 1911, Philadelphia Is Best on Offense.

New York, Oct. 4.—A well known big league club manager said recently that in his opinion more games were won and lost on the infield than in any other department of baseball. Few will contradict the assertion, and it is quite likely that victory will hang, to a considerable extent, upon the work of the Giants' and Athletics' infields during the coming world's series between the New York and Philadelphia clubs. The Athletics' \$100,000 infield is one that commands respect and admiration in baseball circles, but it isn't worrying the Giants, if their statements are to be believed. McGraw has not tried to put a financial figure on his four infielders, but he is known to be as well satisfied with his combination as a baseball manager can be.

Still, the fact remains that all the figures available regarding the world's series of 1911 and season's infield quartet composed of McInnis, Collins, Baker and Barry as superior to Merkle, Doyle, Herzog, Shafer and Fletcher, considered at a whole, in the combination which helped defeat the Giants two years ago McInnis had no part, being on the bench with an arm which was just gaining strength after being broken. Harry Davis, the veteran, who took his place, proved a most acceptable substitute, but with McInnis on the infield bag, as he will be when the present series opens, the Athletics' infield is certain to be stronger than it was in 1911. Shafer has held down third for the Giants in place of Herzog most of the season and will probably alternate with Herzog, according to the style of pitching to be faced. Aside from these shifts and substitutions the line-ups will be the same as two years ago, when the Athletics won the world's championship with four games out of six.

This being the case, the figures available should prove the best means of affording a comparison between the quartets which will work for the Athletics and Giants. Merkle and McInnis will be the rival first basemen, and McInnis appears to have a decided advantage over the Giants' initial sack guardian. Merkle is not as finished a player as McInnis, but possesses greater speed on the bases. In batting the Athletics' star outshines Merkle. He is also more aggressive and covers more ground around first base. Davis outplayed Merkle during the 1911 clash, yet McInnis held the bag up to the point when in the season when he broke his wrist. It is reasonable to suppose that Mack considered him the better player of the two.

Moving to second base, Captain Larry Doyle is found to be opposed by Eddie Collins. The Giants' field leader is a high class player, but Collins is ranked as one of the most famous second basemen of baseball. At no time during the struggle in 1911, however, did Collins outplay Doyle. Whether the latter can duplicate this feat is doubtful. His recent accident in which his shoulder was badly wrenched when his automobile crashed into a tree will not improve his game. Furthermore, Doyle has not played or batted this season up to the standard set by himself during the world's series in which he was opposed by Collins. The latter has improved steadily, and his batting this season has been heavier than before. On the bases Collins is faster than Doyle and has stolen many more sacks than the Giants' field leader. As a run getter the former Columbia university student also has the better of Doyle.

For the Athletics John Franklin three players must be considered. For the Athletics John Franklin Baker, of home run fame, is the sole candidate. He will play against both Herzog and Shafer in all probability since each is likely to see service before the series is completed. Baker outhit Shafer and Herzog in batting this season, but in Shafer he will find a harder opponent than Herzog proved two years ago. The latter is cool yet lightning fast, making sensational stops and throws which appear easy compared with Baker's rather awkward style. Both Shafer and Herzog are faster in the baseline, but the Athletics' star gets on more frequently, due to his heavy hitting. As a run getter his season records show that he outclasses both the Giants and will probably figure in the third base play.

The important position of shortstop in the world's series will be filled by Barry for the Athletics and Fletcher for the Giants. Barry outfielded and outbatted Fletcher in the clash two years ago, but Fletcher records of the two players show that time, while Barry has not done more

than hold his own. This season the records of the two players show that in their respective leagues Fletcher has been batting better than Barry. As a base stealer and scorer of runs the Giants' shortstop has the edge on Connie Mack's player. It would appear as though the Giants had an advantage here and close to an even break at second. At the two other stations the Athletics are the stronger. The batting records of the infield players for 1913, and batting and fielding records in the world's series of 1911 follows:

**IN MEMORY OF STOCKTON.**  
Princeton, N. J., Oct. 4.—A memorial in honor of Richard Stockton, one of the New Jersey signers of the Declaration of Independence, was dedicated at his grave in Stony Brook cemetery here today. The memorial was erected by the New Jersey society, Sons of the American Revolution.

President Hibben of Princeton university delivered the dedication address and Richard Stockton, great-great-grandson of the signer, unveiled the memorial.

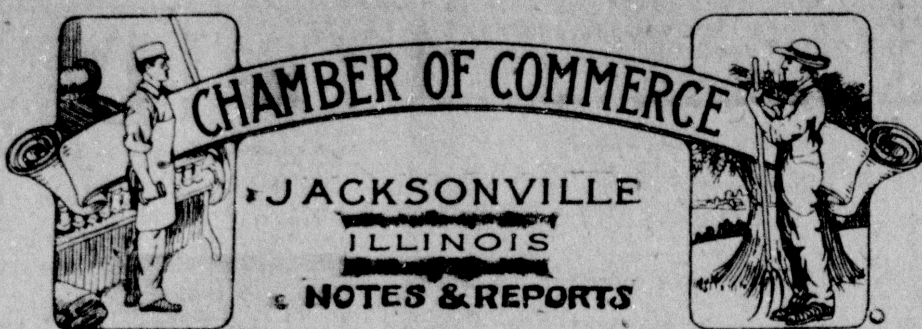

**IF YOU SUFFER ANY  
STOMACH DISTRESS**

You Should Take Mi-o-na Now—At Once—Its Action is Immediate—Safe—Effective.

When you feel nervous, irritable, tired and dizzy—when you have headaches, sour stomach, heartburn and pains in the colon and bowels—you suffer from indigestion—you need Mi-o-na at once.

Mi-o-na is a specific for stomach ills—it goes to the seat of your trouble and quickly and surely ends stomach misery. It builds up and strengthens the stomach walls and glands, improves quickly the digestive system and assists nature to properly digest the food, thus insuring health for the entire system.

Do not suffer another day. Get a 50 cent box of Mi-o-na Tablets at your nearest drug store—keep them with you constantly, they will help you get well and strong and immediate relief is sure. Do not delay—delays are dangerous and needless. If not benefited Mi-o-na costs nothing.—Adv.

CITY BUILDING IS A BROAD SUBJECT AND REQUIRES THE CLOSE STUDY OF EVEN THE MOST OPTIMISTIC CITIZENS.

The schools of this city would be an excellent medium for disseminating important facts about Jacksonville by having a special course in regular curriculum. This suggestion of teaching to the pupils of the Eighth Grade or students in the High School, the history and advantages of their own city might seem a queer innovation to some of us, but it has been tried and proven good in many cities.

The text book is generally written by some citizen and includes a comprehensive study of the conditions in his respective community. Such a work serves to awaken in the mind of the scholar a deeper appreciation of his home city and points out the advantages and opportunities for making money without going to some other place.

Pessimistic fathers soon learn from the questions asked of them by their children how little they really know about the town in which they were born and reared up. The course weakens a greater civic interest throughout the entire community and the children who are soon to be the future voters are taught the elements of true and home patriotic citizenship.

Some graduate student or alumnus of our local colleges living here in Jacksonville might undertake to prepare such a text book and if properly written would be adopted by our school board, as a subject which the children should be taught.

Grand Rapids and Davenport, Ia., are two cities which have found such a course to be beneficial and the commercial organizations of those places were instrumental in getting it done. "Know Jacksonville" examination if taken by many of our business men would have many failures.

**A CITY CAN HAVE A BLACK EYE WHEN IT HAS NO STREET LIGHTS TO GUIDE THE PEDESTRIAN.**

Some people feel that some day in the near future Jacksonville will have street lights which are something better than candles or imitation lanterns. Until that day arrives the business men would find in addition to their store windows, electric signs to be fitting substitutes for lighting up our business district. Such signs would proclaim that we have a live business town as they do in other cities.

Electrical sign experts are in the city and they appear to be confident that quite a number of attractive signs will be installed. It is to be hoped that the Chamber of Commerce will set the pace and have one that will fling every night its name in dancing rays of light in the face of every citizen and stranger.

**TRADE AND CREDITS.**  
For reminding the merchants that at the office of the Chamber of Commerce are ten thousand ratings which will be furnished promptly over the phone to any of the members this notice is given you. The opening of the Fall Trade is bound to be accompanied by the extension of credit and you will save yourself time and money by making use of this service of the Association.

**SOME IMPROVEMENTS.**  
Galesburg is in the midst of raising over \$75,000 for a new Y. M. C. A. building. Jacksonville's citizens could well afford to invest \$25,000 in building dormitories and remodeling the building which is now operated by our own association. If you want a place that will attract the boys and a desirable club for the business men these immediate improvements could be wisely made.

Some philanthropic individual that has more worldly goods than he or she can take away with them could afford to improve the work of the Jacksonville Young Men's Association by giving a gift of \$10,000.

**JACKSONVILLE SHOULD GET READY TO PROCLAIM TO THE WORLD THAT SHE NOW SEEMS TO HAVE A GOOD AND CLEAR WATER SUPPLY.**

President Andrews has called a special meeting of the Board of Directors for next Friday night, October 10th, to consider the one most important question which now confronts the city, that of "Good Lights." It is not always the cheapest solution which is desired but the one which is going to give us the most satisfactory immediate results. Isn't it about time that every business man interests himself in this question?

**RURAL AFFAIRS COMMITTEE MEETS TUESDAY.**

Chairman F. J. Heintz has called a meeting of the Rural Affairs Committee for next Tuesday at 4:30 p. m. A number of important questions are to be considered. As this committee always finds something to do. During the hot summer months its members pushed the cause of Good Roads and have done much to awaken this county and surrounding counties in this most important cause. The Secretary is anxious that all the various committees meet and outline the work which they hope to undertake during the coming winter months.

**"FORWARD" SHOULD BE OUR WATCH WORD FOR AN ACTIVE CHAMBER OF COMMERCE AND A LIVE FALL CAMPAIGN.**

Following are some of the principles enunciated by the Grand Rapids Association of commerce which clearly show some of the chief planks of their platform. The Grand Rapids Association of Commerce believes that whatever promotes public welfare promotes business and decent conditions in the constantly increasing standards of a commercial assets. To that end we advocate the leadership of the business interests as to the specific methods to make the city form of government simple, effective and democratic, to establish specific and economical methods in the administration of public affairs, and to serve and improve the public health by co-operating with social agencies, to encourage decent housing, to provide a plan for the cities' growth by the study of geography with civic and social needs and to promote industrial and professional education of our citizenship. (Grand Rapids Progress.)

**BUSINESS FOR SALE.**  
My whole time being taken up with other duties, I have decided to offer my cigar factory and business for sale. If interested, call at circuit clerk's office.

Eugene D. Pratt.

**PUBLIC SALE.**  
Tuesday, Oct. 21, Elijah F. Million will sell at his farm a mile and a half southeast of Murrayville, three good horses, one good milk cow, 13 calves, 20 sheep, wagons, buggy, harness, plows, cultivators, tongue scraper, 75 bushels oats, derrick fork, steel harrow, mower, corn planter, and many other articles. Sale to begin at 10 a. m.

Some time ago I was in a very bad condition with my lungs and throat, and could receive no benefit, so consulted Dr. C. W. Carson, the Chicago Specialist, and am glad to say now that I am thoroughly recovered, and feel as well as I ever did. Will be glad to answer any letters of inquiry. Mr. A. A. Bowman, Easton, Ill. (Adv.)

### ILLINOIS COLLEGE NOTES.

The Reverend Mr. Rees will speak to the students at the chapel exercises Tuesday morning. Mrs. Rees will also sing a solo at this chapel service.

President Rammelkamp has received from Mr. F. A. Vanderlip, president of the National City Bank of New York, a request for a drawing of the seal of the college. Mr. Vanderlip is remodeling the living room at Beechwood, his country estate on the Hudson, and the seals of the colleges and universities in which Mr. Vanderlip has been interested are to be carved in the ceiling of this room.

Dr. Thomas W. Smith, '87, of New York City, has been appointed to represent Illinois college at the dedication of the Graduate college at Princeton university on Oct. 22. Dr. Smith will attend the exercises as a representative of the board of trustees.

Students are still registering in all departments of the college. The attendance in Whipple academy is now about equal to that of last year. In view of the new school law relating to free tuition in public high schools, this registration in Whipple is very encouraging.

The Reverend Mr. Sturgell, of Chambersburg, offered the prayer at the chapel service on Tuesday.

President and Mrs. Rammelkamp have issued invitations for the annual reception to the trustees and faculty on Friday evening, Oct. 10.

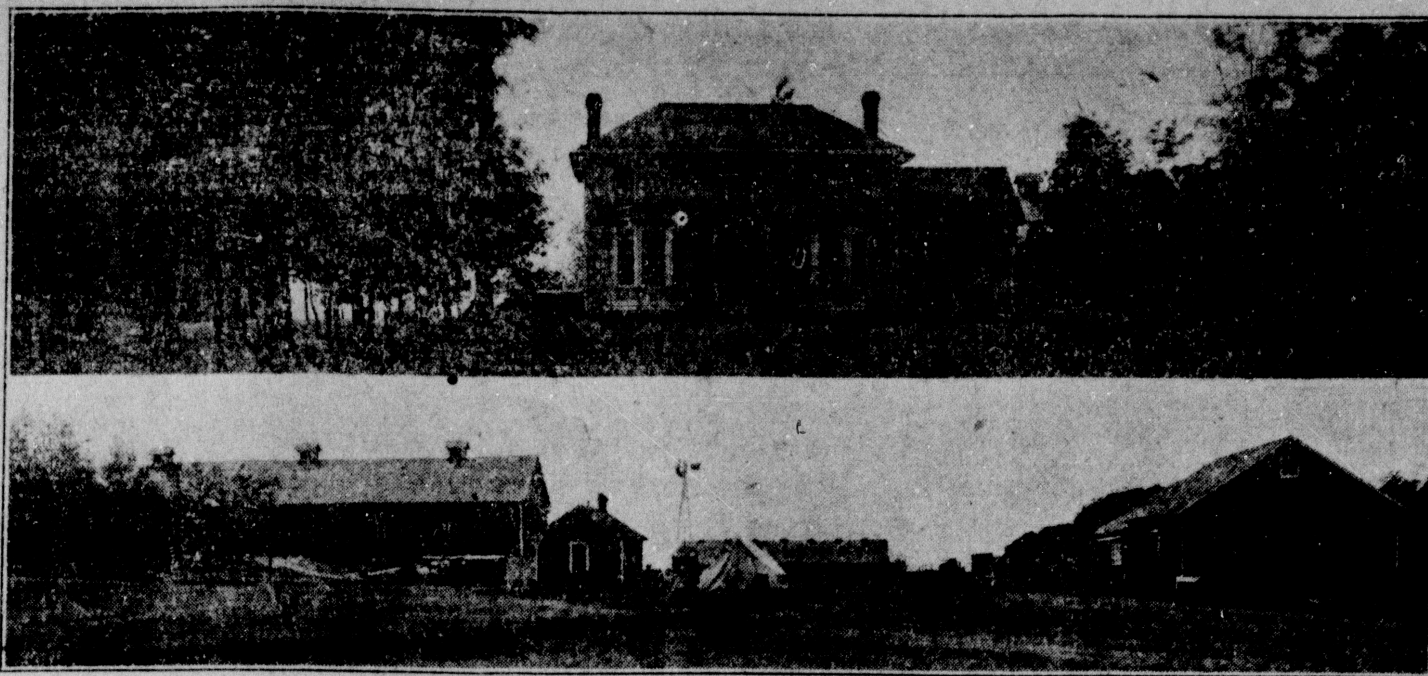

The committee which has been busy preparing an address for the establishment of a memorial in the college in honor of Professor H. W. Johnston will soon issue an address to the former students and friends of Professor Johnston. It is proposed to establish a library fund for the purchase of classical books.

Wanted—First class automobile mechanic. S. W. Babb, Cadillac dealer.

**We Claim the Distinction of Making a Strictly Tailor-Made to Measure**

# SUIT OR OVERCOAT

**At Prices Within the Reach of All**

Every garment made by us is guaranteed to be as perfect in style, fit and workmanship as those made by higher priced tailors.

And speaking of prices, ours can't be beat. We will save you \$5 to \$10 on every suit as compared with what is asked elsewhere for the same article.

Money talks, and when we tell you you can get equal value for less money, it is to your interest to investigate.

Practice economy, whether in business or home. Whether with the butcher, grocer or for your clothes. Buy where you can get the best for your money.

Our Prices for Suits or Overcoats, \$15, \$20, \$25, \$30, are, we think, within reach of all, and whether you buy a \$15 or \$30 garment, you get the same guarantee to please you.

## GENERAL DECLINE IN THE STEEL STOCKS

IN REMAINDER OF LIST MOVE-  
MENT IS WAVERING, WITH  
DOWNWARD TREND.

Weakness of Steel Group is Associat-  
ed With Reduction in the Price of  
Steel Billets Announced With  
Prospects of Further Cuts.

(By Associated Press)  
New York, Oct. 4.—A general de-  
cline in the steel stocks was the  
conspicuous movement of the day in  
the securities market. Republic  
Steel common and preferred, Colo-  
rado Fuel, Lackawanna Steel, Bethle-  
hem Steel common and preferred,  
both of the United States steel is-  
sues, were under pressure and their  
losses ranged from fractions to 4  
points. In the remainder of the list  
the movement was wavering, with a  
downward trend.

At the outset the tone was firm  
but in the second hour the list de-  
veloped increasing heaviness. Read-  
ing was depressed 2 points and St.  
Paul, Lehigh Valley and Amalgamat-  
ed two points each.

In the last minutes several issues  
were bid up slightly, reducing net  
losses on the day.

Weakness of the steel group was  
associated with a reduction in the  
price of steel billets announced to-  
day with prospects of further cuts.

Instead of the small cash gain pre-  
dicted, the bank statement revealed  
an actual loss of more than \$9,500,  
600. The surplus was cut from \$11,  
644,000 to \$3,695,000. The loss was  
ascribed to operations incidental to  
the unusually large October interest  
and dividend payments made during  
the week.

## TWO OCEANS WILL MEET IN GREAT PANAMA CANAL

Dynamiting of Gamboa Dike, Will Mean Flooding of Culebra Cut—Will Provide Last Link for Completion of the Work.

Washington, Oct. 4.—Arrangements are practically completed for the blowing up next week of Gamboa dike, which will mean the flooding of Culebra cut and the practical completion of the water connection between the Atlantic and Pacific oceans. Gamboa dike is a great artificial embankment at the northern end of the famous Culebra cut. It was erected to prevent the waters of the Chagres river and of Gatun lake, created artificially by impounding the waters of the Chagres river, from owing into the Culebra cut while the excavating work was going on there. This dike is nearly 1000 feet long, 48.8 feet high, 183 feet wide at the base and 65 feet wide at the top.

Gatun lake, the waters of which will be released by the dynamiting of the Gamboa dike, came into existence on April 25, 1910, when the western diversion dam at Gatun was closed and the flow from the Chagres and Trinidad rivers was forced through the artificially constructed spillway channel. Since then the waters in the lake have risen gradually and last fall the rising of the lake caused the waters of the Chagres river to rise up against the great dike at Gamboa, which protected Culebra cut. The flow and the rising continued and for several months the water backed up against the Gamboa dike has been higher than the bottom of the finished portion of Culebra cut.

**Gate Closed Since June.**  
Since the morning of July 27 last the gate of the sluices through the ogee of the Gatun spillway has been closed. At that time the surface of the water in Gatun lake was 48.3 feet above the sea level, having been maintained at that level since January 1, 1913, when the sluice gates were opened. The spillway has been not be opened again before the final completion of the canal. This means that the lake is on its final rise to the operating level. Under conditions of normal runoff of the Chagres and other streams which are pouring their flow into Gatun lake, where the water is held confined, it is believed that Gatun lake will reach its final level of 85 feet above the level of the sea about December 1 of this year. If the calculations of the engineers have been correct, the diversion of the waters of the Gatun lake into Culebra cut next week should give a 21 foot channel through the cut. The town of Gamboa would be covered with water and wiped off the map.

**Some Dike Measurements.**  
The top of the dike at Gamboa is 78.2 feet above sea level, but even if the dike should not be blown up, the water in the lake would not reach that height for some time. The waters now impounded in Gatun lake represent the draining of a basin comprising 1,320 square miles. When the surface of the water in the lake rises to 85 feet, the level at which it will be maintained for the operation of the canal, the lake will have an area of 164 square miles. It will be the largest artificially created lake in the world. There will be 183,000,000,000 cubic feet of water in the lake. When the level of the lake is 85 feet above sea level there will be a depth of 45 feet in Culebra cut.

After Gamboa dike has been dynamited and the water from Gatun lake has flooded Culebra cut, great dredges will be put to work to dredge the channel and to remove the enormous mass of material that will naturally be swept into the cut by the rushing waters of the lake and any masses of rock and soil that may slide into the cut, having been shaken loose by the shock of the explosion.

**Will Help Supply Last Link.**  
Although the flooding of the Culebra cut will be an event of great importance, highly significant in its bearing upon the final achievement of the canal, as it will mean the supplying of the last link connecting the Atlantic and Pacific oceans, the blowing up of Gamboa dike will not be made the occasion of any extensive official celebration. There will be no elaborate exercises and the program for the occasion is extremely simple and of matter of fact. Colonel Goethals, the guiding genius of the canal, clad in the white soldiers uniform which has made him a conspicuous figure during the work on the canal, will occupy a position just beyond the mud of the Gatun dam. With him will be a little staff of officers and a small number of civilians, all men who are actively engaged in the work on the great waterway. When the explosion comes, after everything is in readiness and the signal given, there will be a tremendous upheaval, followed by a mighty rush of waters from Gatun lake, carrying enormous masses of rocks, soil, trees and other tropical vegetation into Culebra cut. That will be all and on the following day the work of removing this mass and clearing the channel of the cut will be taken up by a number of dredges which have been held in readiness for some time.

## PREPARES ESTIMATE OF AMOUNT OF MILK MARKED IN JACKSONVILLE

Dr. A. M. King, in Complying With Request From Washington, Finds Approximately 317,000 Gallons Are Used Annually.

Dr. A. M. King has prepared a statement regarding the amount of milk used in Jacksonville for the department of agriculture at Washington, which shows that approximately 317,000 gallons are used annually in Jacksonville, exclusive of amounts consumed by persons who keep their own cows.

Dr. King received a request from the department of agriculture asking for a statement of the amount of milk used and telephoned to the state institutions and the people whom he could find that sold milk, preparing his report from the facts gathered in this manner. He learned that the State School for the Deaf consumed 125 gallons per day, the School for the Blind 36 gallons and the Jacksonville State Hospital 55 gallons. Dairies market and sell in Jacksonville 800 gallons of milk per day.

## RALLY FOR IRISH HOME RULE.

New York, Oct. 4.—The opening gun of what is hoped to be the final campaign of the Irish in America in behalf of the Irish parliamentary party will be fired in Carnegie hall tomorrow night, when representatives of all Irish societies of Greater New York will unite in a monster demonstration. Congressman Graham of Illinois and John Purroy Mitchell, collector of the port, will be among the speakers. The rally here will be followed by similar demonstrations during the autumn and winter in all the leading cities of the United States.

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Try This! Hair Gets Thick, Glossy, Wavy and Beautiful at Once—Stops Falling Out.

Immediate?—Yes! Certain?—That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft, hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

## CONSERVATORY NOTES.

Mrs. Genevieve Clark Wilson will give her song recital on Tuesday evening, Oct. 14th, in Northminster church. The public are cordially invited to attend. The program will be opened by Messrs. Kritch and Munger with a violin and piano number.

The first meeting of the Illinois College chorus will be held Monday evening, Oct. 14th, at 7 o'clock, in Recital hall. Work will be begun on Mendelssohn's "Elijah."

The Conservatory orchestra, under Mr. Kritch, will have its first rehearsal on Wednesday evening, Oct. 15th, at seven. Mr. Kritch has chosen for the numbers to be studied this year Tchaikowski's Waltz from the Ballet "Dornroeschen" and the overture to the opera "Lorelei" by Bruch.

Mr. Kritch and Mr. Munger received Friday a large box of fruit from Edwardsville, sent by a former student of the Conservatory.

The musical appreciation class, which met for the first time Tuesday at 4:30 p. m., was well attended, and much enthusiasm was expressed over the lecture as well as the illustrated musical selections.

## FRENCH ACADEMICIAN COMING.

Paris, Oct. 4.—Among the notable passengers sailing on the Savioe today for New York is Emile Boutroux, the French Academician and philosopher, who is to attend the opening of Princeton university's new graduate school. While in America, M. Boutroux will deliver a series of lectures on science and culture, in which he will contend that general culture is preferable to scientific studies.

## A BIG SNAKE.

This is neither the season nor the place for snake stories, but we have one here that is well authenticated. A man passing down north Church street yesterday afternoon saw crawling from under a crossing near J. A. Obermeyer's residence a bull snake which he managed to dispatch. The reptile was 5 feet, 3 inches long honest measurement.

## Wonderful Blood Remedy That Works in the Tissues

The Very Latest Theory About How and Why the Blood is Disordered.

S. S. S. Means Pure Blood Which Insures Long Life and Health.

The great experts in Chemistry and Physiology now declare what has all along been contended by the Swift Laboratory that the germs of blood disorders find lodgment in the interstices of the tissues.

And herein is where S. S. S. goes to work rapidly, effectively and with wonderfully noticeable results. This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the nutritive elements of wheat, roast beef, and fats and the sugars that make up our daily ration.

As a matter of fact there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment. That is why it regenerates the blood supply; why it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions.

And in regenerating the tissues S. S. S. has a rapid and positive antidotal effect upon all those irritating influences that cause rheumatism, sore throat, weak eyes, loss of weight, thin pale cheeks, and that weariness of muscle and nerve that is generally experienced by all sufferers with poisoned blood.

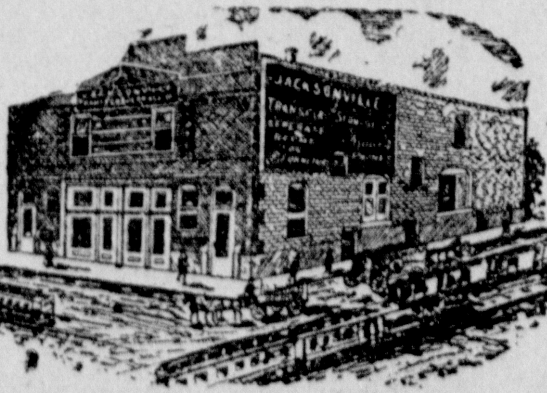

Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright, and energetic, but you will be the picture of new life.

S. S. S. is prepared only in the laboratory of the Swift Specific Co., 201 Swift Bldg., Atlanta, Ga. Who maintain a very efficient Medical Department, where all who have any blood disorder of a stubborn nature may write freely for advice.

S. S. S. is sold everywhere by all drug stores. Beware of all attempts to sell you something "Just as good." Insist upon S. S. S.

## MISS KEPLER IS ACQUITTED OF ASSAULT AND BATTERY CHARGES

Jury Decides Teacher of Buckhorn School Not Guilty of Charge Made—Large Gathering Heard Testimony.

The trial of Miss Della Kepler, teacher of the Buckhorn school, who was charged with assault and battery, was heard before Squire Coons and a jury Saturday. The witnesses were quite numerous and the interest in the case was such that the trial had to be adjourned from Squire Coons' court to the county court room, which was filled to overflowing with residents of the Buckhorn neighborhood. The case was prosecuted by State's Attorney Tilton and Miss Kepler was defended by Judge M. T. Layman. The case went to the jury about 2:45 in the afternoon and after about ten minutes' deliberation they brought in a verdict declaring Miss Kepler not guilty.

**Trouble at School House.**  
The incidents which resulted in the trial took place last Tuesday. According to the testimony, it seems that Robbie Flynn, the 11-year-old son of Mr. and Mrs. Jerry Flynn, was kept in during part of the noon hour for study and that when he was released and went into the yard that he gave a great whoop. There was something about this which constituted an infraction of the teacher's rule and she recalled him to the school house and struck him with her hand and then with a book. At this point Charles Flynn, who is 12 years of age, told the teacher that there had been enough done with the book and it is alleged that he took hold of her arm. Then the teacher, according to the testimony took a stick which was in the window nearby and struck the larger boy with it on the head and back. The force of one blow was such that blood was drawn and the boy sank, or fell into a seat.

Miss Kepler gave the boy water and bathed his head and sent two of the children for the nearest neighbor. Meanwhile one of the children hurried to the home of Mr. and Mrs. Flynn and told them that their boy was unconscious at the school house and they hurried over there. A buggy was brought and Mr. and Mrs. Flynn carried their son to the buggy and took him home. They placed him on a sofa and according to their statement, within about two hours he seemed so much better that they left him and drove to Jacksonville to consult State's Attorney Tilton. The day following a warrant for assault and battery was sworn out in Squire Coon's court and served on Miss Kepler.

**Boy's Head Was Cut.**  
The trial was continued by agreement to Saturday morning at 9 o'clock. There was a difference in the testimony as to just how many times Miss Kepler struck the boy and as to whether or not he placed his hand upon her arm and shoved her away or restrained her. Miss Kepler herself and the other witnesses agreed that there was blood on the boy's head. This is the second year that Miss Kepler has taught the Buckhorn school and Mr. Flynn is one of the directors. The witnesses for the prosecution were Charles Flynn, May Obert, Berdette Cosgriff, Elsie Lewis and Carl Simpkins, all pupils in the school, and Mr. and Mrs. Jerry Flynn, parents of the boy who was struck by the teacher. Witnesses for the defense were Miss Kepler, Mrs. Hene Burns, James Cosgriff and Thomas Mandeville that there were a great many teachers among the spectators and as would naturally be the case there were many children with their parents. Altogether it was an unusual court case and scene. The jurors in the case were: C. A. Jackson, George Royce, J. M. Stevens, Charles B. Joy, Stephen Gorham and Lloyd Lukeman.

Miss Kepler is accounted one of the efficient teachers of the county and Mr. and Mrs. Flynn are highly esteemed by those who know them.

The Baptist Church Aid society will hold a rummage sale on South Main St., Oct. 10-11.

## TO ATTEND EPISCOPAL CONVENTION.

Mr. and Mrs. H. M. Andre will leave tonight for New York City, where Mr. Andre goes to attend the general convention of the Episcopal church. He is one of the lay delegates from this diocese to the great church gathering. This convention is to be one of special importance as a number of questions of vital church interest will come up for settlement. The sessions will continue for three weeks but Mr. and Mrs. Andre will only be able to remain for two weeks. Charles E. Hay and Major Bluford Wilson of Springfield are also lay delegates to the convention.

## J. H. S. ANNEXES INITIAL GAME

**TAKES ALTON INTO CAMP TO  
TUNE OF 12 TO 0.**

Local Men Show Up Well in First Appearance on Gridiron—Killbrev for J. H. S. and T. Henry for Alton Were the Stars.

The Alton high school football team, erstwhile champions of southern Illinois, met a decided Waterloo at the hands of the Jacksonville High school eleven, on Illinois field Saturday afternoon, the score being 12 to 0. All kinds of wild stories floated in the local camp relative to the strength of the visitors and with a record of not a single defeat against them last year, and with eight old men in the line, including the big speedy full back, T. Henry, there were some indications that J. H. S. would have to play more than ordinary football to defeat that kind of a bunch of pig-skin chasers. The real facts in the case are, that Alton could almost be termed a "one man" team, for if T. Henry had been taken out, the bunch would have blown up like a soap bubble. Secondly, the visitors lack a repertoire of plays. Oftimes when they had a good chance for big gains, they were forced to use the same old play. Their team work at times was decidedly poor and some of the plays, which brought applause from the side-lines, were just of the "mere luck" kind. Henry, is a whirlwind, and either at offensive player or on the defensive line, he was never out of the game. He was not quite at home when the contest started, filling the place of quarter back. In the last half he was shifted to his old place at full and it could be readily seen that he was "at home."

Cochran Buland's colts (some of the youngsters had never been in a regular football game until yesterday) showed up well under fire. Lined up against the vets from Alton they showed remarkable nerve and courage. Occasionally there was a sign of stage fright, but the longer the game preceded the more ginger they injected into their work, and when the last quarter was staged, the tigers were wading right through the visitor's line. Pitted against the strong playing of T. Henry was that of Clay Killbrev. He is a veritable whirlwind, a line bucker and plunger, with the ear marks of a big man in college football before he rounds out his education. Haigh and Sutherland, Strawn, Herring and Sub Whitlock were in the game with a vim. The whole squad in fact, except for a bobble or so and some bad judgment once or twice, revealed secret that, before the season is over, the team that beats them, can chalk it up as a great victory.

Jacksonville kicked to Alton in the first quarter, Wilson returning the ball a short way. Jacksonville held the visitors for down and after Killbrev had been sent through the line a couple of times the teams saw-sawed across the field until Sutherland was handed the oval and in a pretty run of twenty-five yards, made a touchdown. Reynolds failed to kick goal. Score, 6 to 0. The rest of the quarter resulted in both teams being held for downs and some advancement of the ball through the clever work of Killbrev and T. Henry for their respective teams. In the second quarter Alton, on two different occasions, tried a drop kick which failed. Jacksonville lost the ball twice on fumbles and aside from some penalties given Jacksonville and Whitlock taking Haigh's place at left half, the latter being knocked out, the quarter was nothing but straight football.

In the beginning of the third quarter Alexander playing left end for the visitors, was succeeded by Cleveland and Alexander went to right guard, relieving Henry and T. Henry was put in his old place at full back, McDowell taking up the work of quarter back. Alton kicked to J. H. S. Reynolds made a pretty end run on receiving the ball. Sutherland followed with another gain, when Alton took a brace and held the locals for downs. Alton tried a forward pass and failed. Killbrev was sent through the line for a good gain, and then Haigh was handed the oval for three successive times, making good gains, but was again knocked out. Spears taking his place, here Jacksonville took a brace and played tiger like. Killbrev handling the ball four times successively, being pushed over for a touchdown, making the score 12 to 0, Reynolds failing to kick goal.

In the last quarter it seemed that Alton was destined to score. By a number of line bucks and end runs they moved down the field to within Jacksonville's ten yard line, when Henry attempted a goal kick, which went wide. J. H. S. worked the ball back to the center of the field, thanks to a splendid run by Whitlock. The rest of the quarter was a see-saw of the ball, with Jacksonville steadily gaining.

The following was the line-up: J. H. S.—Berriman, c; Floyd Williamson, rg; Dickson, lg; Strawn, lt; L. P. Wood, rt; L. I. Wood, re; Herring, le; Reynolds, qb; Sutherland, rbb; Haigh, lbb; Killbrev, fb.

Alton—Parker, c; Russell, rg; M. Henry, lg; Degehardt, lt; Wilson, rt; Poole, re; Alexander, le; T. Henry, qb; Dodge, rbb; Lewis Besser, lbb; Lynn Besser, fb.

Officials: Referee, W. T. Harmon; Lewis Height (Alton) umpire; linesmen, Frisbie and Fuller; timer, Prof. P. H. Rayhill.

## TIGERS PLAY PRACTICE GAME WITH ILLINOIS

College Team Given Splendid Workout Against Deaf and Dumb Eleven.

After the whistle blew for the close of the Alton-High school game, most of the crowd remained to see the contest announced between the Illinois college and Deaf and Dumb "Tigers." This game was arranged by Coach Harmon for the purpose of giving the "varsity" a good workout in preparation for the Lincoln game next Saturday and it certainly served that purpose admirably. Though outweighed many pounds to the man and with several of the youngsters facing a big game for the first time in their lives, the Tigers went at it as if they were playing for the championship of the universe and gave the big crowd a treat in rapid formations and good tackling.

Harmon started the regular team against the deaf boys but soon began replacing them with second string men, the object being to get a line on every player in his big squad. The Tigers played the same line up throughout the contest except that Burns and Stebleton alternated in the back field. The game demonstrated that I. C. has the best team that it has had in years and displayed a variety of attacks and a stone wall defense that promises great things for the season ahead. While outclassed the lightweight "Tigers" fought their big opponents to a standstill and achieved the honor of crossing the goal line, something that is not likely to happen often this fall if indications count for anything. Friday kicked goal.

For Illinois no one in particular shone out above the rest, a well balanced team work being the most noticeable thing about their play and that is greatly to be desired. Crimmins made a spectacular run for the Tigers' touchdown. It was made near the close of the game when they were playing against most of the substitutes and consequently had more of an opportunity to use their speed. The game was in marked contrast to the high school contest in that it consisted almost wholly of open work. Coach Buland officiated as referee and Maxwell as umpire. Prof. T. P. Carter was head linesman and the timekeeper was Prof. J. H. Rayhill. The final score was 33 to 7 in favor of I. C.

Thompson-Hamm.

Otis O. Thompson and Miss Edith Hamm, both of Waverly, were married Saturday by Judge Brockhouse at the court house. They will reside in Waverly.

Stice-Carter.

The marriage of Mr. Roland L. Stice and Miss Beulah Carter took place Saturday morning at 8:30 o'clock in the study of the Central Christian church, Rev. Clyde Darsie, the pastor, officiating. The attendants were Miss Edna Carter, a sister of the bride, and E. M. Johnson.

The bride is the daughter of Mr. and Mrs. C. C. Carter of South Main street and has lived almost her entire life in Jacksonville. She received her education at the high school and also studied voice and piano at the Illinois Woman's college. She is a singer of much ability and has made many friends through her amiable disposition. The groom is the son of Mr. and Mrs. James R. Stice, who reside west of Jacksonville. He is a young farmer of splendid character and business ability. Both young people have taken an active part in the work of the Central Christian church.

The young folks left the city over the Alton at 9:40 o'clock for the south and after a honeymoon of two weeks will be at home to their friends in Jacksonville.

## FUNERALS

Traeger.

The funeral of Miss Elsie Traeger was held Saturday afternoon at 2 o'clock from the St. Peter Lutheran church northwest of Arenzville, in charge of Rev. Mr. Seiber. The church choir furnished music and the flowers were cared for by Mrs. Arthur Shuman, Misses Ruth Ryan, Minnie and Elsie Stock.

Interment was made in the church burial grounds and the bearers were Irvin Houston, Harold Scott, Roy Fisher, Louis Meyer, Arthur Stock and Edward Hinners.

## FARWELL & RHINES' GLUTEN FLOUR

The pure food laws of the United States and of individual states demand that flour called "Gluten Flour" for the use of diabetics, and others, shall contain at least 5.6 per cent of nitrogen, this factor multiplied by the factor 6.25 (in use by Analysts) shows the amount of protein or gluten required to 35 per cent. Both the physician and his diabetic patient have a right to expect and insist that such a product be furnished. Substitution, carelessness or deception in this matter are dangerous.

Our "Gluten Flour" of superior stock, granulation and manufacture, is made especially for such cases, and contains about 40 per cent of gluten or protein. It is not excelled, if equalled, in America or Europe, as diet in marked case of Diabetes Mellitus, Obesity, Rheumatism and other ills arising from excess of uric acid.

## Selling Steps

The greatest boon that has been given to the housekeeper of today is the modern kitchen cabinet. And among kitchen cabinets, "Sellers" Kitcheneed stands head and shoulder above the rest.

It cuts the drudgery of kitchen work almost squarely in two. It brings everything necessary in cooking, together, all ready for use. It allows the housewife to spend hours of her time, that would otherwise be spent in "chasing after" things, in leisure or at some more pleasant occupation.

Because everything is right at hand, within easy reach, it enables you to do a large part of your work seated at the cabinet, entirely doing away with long hours of wearisome standing and walking about.

"Sellers" Kitcheneed contains dozens of conveniences that you cannot fully appreciate until you have used one. It contains more distinctive, sanitary and economical features than any other cabinet made. There is a reason for this. For al-

most a quarter of a century the "Sellers" Company has made nothing but kitchen furniture, always studying and experimenting in their effort to in some way improve their product. As a result, Kitcheneed offers you splendid advantages that no other kitchen cabinet can, and at prices that other concerns could not afford. Don't you think that you would appreciate these things—excellent appliances that not only save hundreds and hundreds of footsteps every day, but make your work lighter and keep things better as well? We know you would.
